PRIVATE ASSISTANCE · THE SMALLER STEP

A personal assistant that installs itself.

The lighter way in. A personal assistant, set up guided on your own machine — it keeps your papers and calendar in order, and your data never leaves.

TWO ROLES

- An orchestrator — does the work, keeps your papers and calendar in order.
- A reviewer — checks results before they reach you.

YOURS, ON YOUR MACHINE

- Runs on your own machine — your data never leaves.
- Installs itself, guided — and soon, on its own.
- The step before the full Private Executive.

USD 2,000 COMING SOON

The smaller step. When you want the whole operation, Private Executive is the full package.
