FOR REGISTERED PARTNERS

How we work with sales partners.

You bring the client and the trust. We carry the product, the setup and the support. You sell something that already works, in daily use — not a promise.

> **Europe, through one partner**
> Sovereignty travels — the product belongs to whoever runs it, wherever they are, and we never need to know who or where that is. Europe is our strongest market, and the one place the law asks us to work through a licensed partner on the ground. That partner is what this conversation is about: the first one in shapes the terms.

The commission

You keep 30% of the revenue.

On every sale you bring, across the Private Executive line. Paid per closed sale.

How you start

So you know the product first-hand, you get your own Private Assistant to use while we work together — it's settled with your first real sale. You sell from experience, not from a brochure.

Who it fits

- Advisors and consultants who already hold the trust.
- Firms, practices, tax advisors, notaries, owner-run companies — people with client papers and professional secrecy, often across several countries.

You keep the relationship. We carry the product.

Next step

Apply at private-executive.com.ar/partners — if the fit is right, the first step is a conversation.
