PRIVATE EXECUTIVE

Your own AI, set up on your own machine.

An assistant that knows your world, decides the way you would, and belongs to you. Ready-made: we install it, leave it running and hand it over. Software and setup — the hardware is chosen separately, with you.

IT KNOWS YOUR WORLD

Your papers, sources and clients — sorted and remembered, so it answers with what is yours.

IT DECIDES LIKE YOU

A decision protocol, written with you: what it settles alone, what it checks, what it never touches. A loop that learns to decide the way you do.

IT'S YOURS

Runs on your machine, keeps its records in your archive. Change tools tomorrow and you take everything with you.

What's in the package

Delivered and set up on your machine — in plain words, with the tool names alongside.

Your assistant	An orchestrator, plus a reviewer that checks receipts and results	Hermes
Your operation	Accounting, receipts, clients, invoices	ERPNext

Handover	Full install on your machine, handover accepted against your own documents	—

The price

USD 5,000 / 7,500 / 10,000 + VAT AVAILABLE NOW

The price follows the places: **1–10 founders** (shaped with the first ten) · 11–20 · from 21. Early buyers keep their price. A fixed price for the result, not for hours.

The cook eats in his own restaurant — Caprey runs its own books on it, every day.
